

DECLARATION OF CONFORMITY No. 190826

Name of manufacturer: SL Protection OÜ

Address: Vana-Narva mnt. 30, Maardu, 74114, Estonia

Name of Product: ConProtect Cure

Product Description:

ConProtect Cure is a concrete surface treatment agent that chemically reacts with both fresh and existing concrete, hardening and strengthening the concrete while simultaneously acting as a dustproofing agent. It does not form a surface film or alter the natural texture of the concrete surface.

Field of application:

ConProtect Cure is suitable for protecting a wide range of concrete structures, including marine and coastal structures, bridges, tunnels, roads, parking facilities, swimming pools, pipes, and precast concrete elements.

Declared performance:

Main characteristics	Performance
Viscosity	~ 1,06 mPa
pH	11,5
Freezing Point	0 °C

Product compliance: Meets the requirements.

Signed on behalf of the manufacturer by:

Margus Siilo (Technical Manager)
